

Applied Language Society (APPLES) is a society that was established in the Academy of Language Studies, which consists of the LG240 students as their committee members. This society is a sign of teamwork and friendship between the members as they organise various events every semester, while strengthening the bond among each other. Throughout the years, these are some of the events that APPLES has successfully organised and received an abundance of positive and encouraging feedback from many students.

INITIATION DAY

Initiation Day is one of the must-have programmes conducted by APPLES, as an initiative for the freshmen to have a fun and exciting ice-breaking session, filled with various slots and activities. This programme involves the committee members of APPLES and the first semester students and the main objective of the programme is to develop friendship and enhance communication skills among students.

POETRY NIGHT

Poetry Night is one of the staple events of APPLES. This programme aims to provide opportunities for students of the Academy of Language Studies as well as students from other faculties who are interested in the delivery of poetry. Other than that, students in the previous semesters were able to be exposed to the works of local poets and got the chance to interact and ask questions regarding poetry with the local poets such as Jack Malik.

MOVIE NIGHT

“APPLES Movie Night” is one of our best events as we aim to provide a stress-free and comfortable environment for all students of UiTM Shah Alam to socialise with their friends, while enjoying the best movies in our Auditorium APB. Plus, this event is also one of our initiatives to raise our funds through ticket and food sales.

VOICE IT + VERSES VS VERSES

“Verses VS Verses” is a free poetry competition for the students to display their creativity in writing. Students were given two weeks to submit their work of art. On the other hand, “Voice It” is a competition that focuses on the verbal delivery of the students. The objectives of this programme is to open up opportunities and encourage the students in poetry writing. Hence, this is able to enhance the students’ spirit to be actively involved in the activities conducted. During the MCO early on this year, we collaborated with ECLIPSE to conduct an event called “Verses to the World” where participants could send their entries online. Since the pandemic is not showing any signs of slowing down, we are also planning on having other online competitions this semester to provide more virtual and interactive platforms for students to showcase their talents.

DRAMA NIGHT

"Drama Night", a successful event conducted by one of APPLES subgroups, the Drama Club, which is often held at Dewan Resital Panca Sakti. With their hard work and determination, everything was managed perfectly by the members starting from auditioning students from various faculties as our casts, scriptwriting, training sessions, stage management, preparing props and costumes, and more. Plus, everyone is welcome to watch and enjoy the thrilling performances, prepared by the club members. This event is a huge platform for students to unleash their acting skills and also a chance to discover their true talent.

(December 3rd, 2020: Drama Club with the entire crew of ‘WANHAFT’)

APPLES will always keep on planning more exciting activities and events for our students despite having to stay at home and go through Open Distance Learning (ODL). One of the events we have planned is a new monodrama competition. We are also planning on having a career talk for LG240 students so that they’ll have a clearer idea on what they can pursue after they have graduated from EPC. That is just some of the events we have planned! Stay tuned to more events from us and we would love to see you in our upcoming events!
